VI. Current Events

We held Hidden in Plain Sight on Wednesday, November 20. It was an interactive evening highlighting the recreation of a teenager’s bedroom in which various drug paraphernalia or “stash items” are hidden. The program included current Cannabis and Nicotine items, as well as other commonly misused substances.

VII. Upcoming Events:

This new version of the original Screenagers movie addresses issues that elementary school aged kids, parents and educators are facing, i.e., smartwatches in class, unhooking from and monitoring video gaming, social media pressures, exposure too young and what research shows is a healthy amount of screen time. With many solutions to these and other challenges.

Join us on Wednesday, March 12 for Screenagers: Under the Influence

Join Screenagers filmmaker Delaney Ruston as she picks up her camera once more to examine the impact of our digital age on teens' decision-making in relation to substances such as vaping, drugs, and alcohol.

Exploring the latest research and learning more about the personal experiences of teens and families, the film highlights the changing landscape of the substances themselves, offering solutions for how we can best empower teens as they face decisions about what they will and will not be influenced by.
