## VI. Current Events

This new version of the original Screenagers movie addresses issues that elementary school aged kids, parents and educators are facing, i.e., smartwatches in class, unhooking from and monitoring video gaming, social media pressures, exposure too young and what research shows is a healthy amount of screen time. With many solutions to these and other challenges. Dr. Jonathan Hesney facilitated an important conversation after the screening. We held this on December 7, with positive feedback from those who attended. Our community has had over 100 families join in the Wait Until 8th Pledge since this night.

# Hills Valley Coalition

Join us on Wednesday, March 12 for Screenagers: Under the Influence

Join Screenagers filmmaker Delaney Ruston as she picks up her camera once more to examine the impact of our digital age on teens' decision-making in relation to substances such as vaping, drugs, and alcohol.

Exploring the latest research and learning more about the personal experiences of teens and families, the film highlights the changing landscape of the substances themselves, offering solutions for how we can best empower teens as they face decisions about what they will and will not be influenced by.
